

CHIRAZ LINA KANNOUFI

Web & Automation Developer | Bachelor's Degree in Computer Systems

📍 Sétif, Algeria 📞 +213 796 31 45 63 ✉ Chirazkannoufi@gmail.com 🚗 Driver's License (Category B)

PROFESSIONAL PROFILE

Computer Science graduate (Specialization: Computer Systems) from the University of Sétif 1. Versatile professional combining a strong academic background (web development, algorithms, databases, networks) with hands-on field experience in process automation, e-commerce data management, and IT workflow optimization.

EDUCATION & QUALIFICATIONS

Bachelor's Degree in Computer Science (Specialization: Computer Systems) (2022 – 2025)

Ferhat Abbas University - Sétif 1

- **Academic Skills:** Human-Computer Interaction (HCI/IHM), Web Development, Algorithms & Data Structures, Computer Architecture, Operating Systems, Computer Networks, Databases (SQL), Object-Oriented Programming (OOP), Software Engineering, Cybersecurity.
- **Final Year Project (PFE):** GoTrek Web & Mobile Application (Tourism Sector) — UI/UX Design, Frontend Development, and Database Modeling.

Baccalaureate in Experimental Sciences 2021 & 2022 Sessions

Honors (Mention Bien) in both sessions

PROFESSIONAL EXPERIENCE

E-commerce & Automation Manager (03/2026 – Present)

- Developed automation scripts (Google Apps Script, REST APIs) for automatic synchronization of inventory and orders across Shopify, Ecomanager, and Google Sheets.
- Optimized e-commerce data flows and eliminated repetitive manual tasks to increase operational efficiency.

Automation Solutions Developer (FlowTech Automation)

- Designed and published automation scripts and digital tools for businesses, creators, and e-commerce merchants.
- Created UI/UX designs for the digital showcase and structured the technical design of software products.

Web & Automation Developer (Freelance)

- Structured and optimized tracking databases on Google Sheets with automated validation checks.
- Performed data cleaning, deduplication, and dynamic processing for order and delivery datasets.

Digital & Prospecting Consultant (Freelance) (07/2023 – 02/2024)

Direct Marketing & Distribution Projects (USA / Gulf Region)

- Created visual content and managed targeted lead generation campaigns on social media (Snapchat).
- Managed direct customer relationships and provided personalized support through to product delivery.

MAJOR PROJECTS

- **GoTrek (PWA & Mobile Application):** UI/UX design, Front-end development, and SQL database schema modeling for a tourism platform adhering to PWA standards.
- **Google Sheets & Apps Script Automation:** Developed custom JavaScript scripts for data deduplication, text parsing, and automated inventory synchronization.

TECHNICAL SKILLS

UI/UX & Design	Figma (UI/UX Wireframing, Prototypes), Graphic Design, Identity Branding, Canva, HCI/IHM
Web Development	

	JavaScript, Python, Next.js (App Router), React, HTML5/CSS3, Tailwind CSS, Framer Motion
Automation & Backend	Google Apps Script, n8n, Webhooks, REST APIs, Supabase, PostgreSQL, Git/ GitHub
E-commerce & Tools	Shopify, Ecomanager, Payhip, Meta Suite, Google Workspace Automation

CERTIFICATIONS & LANGUAGES

- **Huawei Talent Certification:** Search & Artificial Intelligence (CRA Training Program - 2025)
- **Languages:** Arabic (Native) | French (Fluent / Professional) | English (Advanced / Technical) | German (B1 Level - In Preparation)
